Recent information from [The Intel Hub](#) that [further exposes](#) Wikileaks as a [CIA front](#) is dismissed as unacceptable by many, including some well-educated professionals in the caring field. Seasoned investigators stand behind tell-tale signs that Wikileaks is conducting a major,

well-orchestrated psychological operation to distract the public from even worse human rights abuses such as the Gulf genocide and crime against humanity plus to gain military support for more wars.

Two psychologists emailed the author after reading her article, [Wikileaks Cointelpro Wizard of Oz or 'Whistleblower'?](#) They called it "conspiracy theory mongering."

Another reader commented on Facebook where the article link was provided, "Are the leaks true? If so, who cares how they came to be exposed, or what the whistleblower's possible connections are?"

"The world has a right to know about human rights crimes. This right supersedes any government's secrecy or 'national security' objections."

Others say, "Who cares? The end result is what matters and now the public knows the war crimes committed in Afghanistan."

Others, however, say that the CIA/military psychological operation on the people is what matters, the right of people to think. Article of the Declaration of Human Rights states:

The [Universal Declaration of Human Rights, Article 18](#) states: "Everyone has the right to freedom of thought..." Does Wikileaks' actions violate the right to think through a psychological operation (PSYOP) including Disinformation to control minds and therefore behaviors of the people?

In ["Wikileaks: Surprise: We're Spies!"](#) John Paul Leonard of [Progressive Press](#) asserts that "it's a classic disinformation operation. They pretend to make a big deal about civilian casualties -- but those are less than a fraction of a percent of what we've seen in Iraq. Meanwhile the 'leaks' file is bursting with wild allegations that Pakistan, Iran, China and Russia are behind the insurgency."

"The bottom Wikiline, contrary as advertised, is: Look how few civilians were killed, but how many nasty enemies we are holding at bay. Maybe it's time to take the battle to them!"

"On their Wikileaks summary page, the [Guardian](#) points to a whole library of pretexts for war against Pakistan:

["More than 180 files detail accusations the ISI has supplied, armed and trained insurgents since 2004."](#)

"But they don't tell you that the ISI is a daughter company of the CIA," states Leonard.

"Psychological operations (PSYOPs) are "planned operations to convey *selected information* and indicators to foreign audiences to influence their emotions, motives, objective reasoning, and ultimately the behavior of foreign governments, organizations,

groups, and individuals." ([Wikipedia](#)) Now that the whole world is a U.S. battleground for military's aim, Full Spectrum Dominance, PSYOPS are applied not only on foreign audiences, but also domestic "audiences," just as military is no longer deployed for active duty only on foreign land but is also on U.S. soil for urban warfare.

Webster Tarpley explains in an Alex Jones interview that Wikileaks' performance is a Modified Limited Hangout, a PSYOP, as the national human rights Examiner reported April 11 after discovery of the 30-minute gap in Collateral Damage was reported:

"The 30-minute gap leaves 'a hole right-wingers can drive a propaganda truck through. This gap seems to put Wikileaks back into the category of Pentagon media manipulation tool,' wrote a commenter, Xymphora on Kenny's Sideshow.

A Los Angeles private investigator had told Dupré shortly after Wikileaks' first video, that when mainstream media puts out information such as the 'leaked' video, "Collateral Damage," "it's usually a Modified Limited Hangout." A limited hangout is spy jargon described by [Wikipedia](#) as:

[A] form of [deception](#), [misdirection](#), or [coverup](#) often associated with [intelligence agencies](#) involving a release or "[mea culpa](#)" type of confession of only part of a set of previously hidden sensitive information, that establishes credibility for the one releasing the information who by the very act of confession appears to be "[coming clean](#)" and acting with integrity; but in actuality by withholding key facts is protecting a deeper crime and those who could be exposed if the whole truth came out. In effect, if an array of offenses or misdeeds is suspected, this confession admits to a lesser offense while covering up the greater ones.

A limited hangout typically is a response to lower the pressure felt from inquisitive investigators pursuing clues that threaten to expose everything, and the disclosure is often combined with [red herrings](#) or [propaganda](#) elements that lead to false trails, distractions, or ideological [disinformation](#); thus allowing [covert](#) or criminal elements to continue in their improper activities."

In effect, if an array of offenses or misdeeds is suspected, this confession admits to a lesser offense while covering up the greater ones."

Greater ones? Consider only two of many:

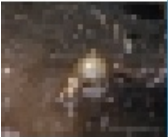

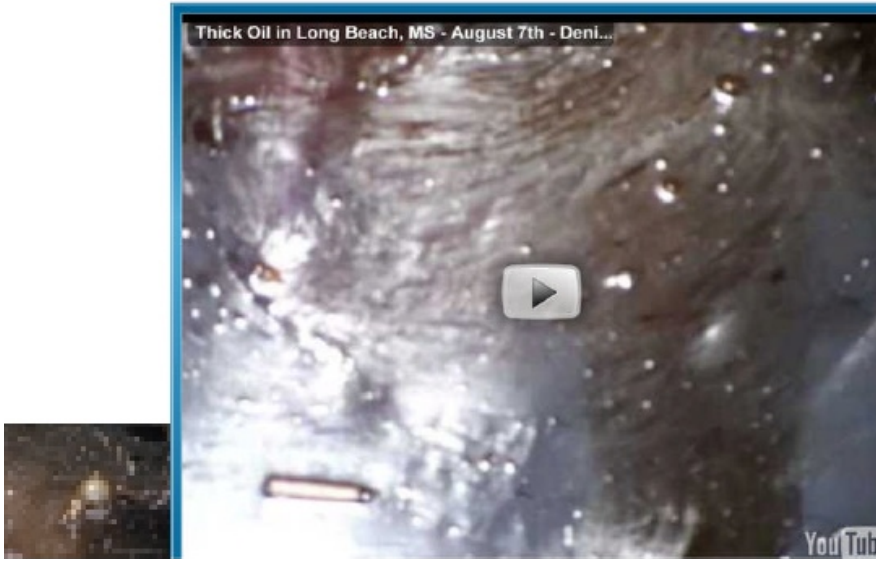

1) The 2001 911 mass murder to justify the war on terror, "conspiracy theory" that angers Julian Assange despite government's 911 Commission Report authors concurring the report was "almost completely untrue; (See: Dupre, D. [911 Commission rejects its report Almost entirely untrue](#), *Examiner*, September 26, 2009) and [Truth vs Nazi-type terror: Bush admin demanded a fake 911 report](#), March 10, 2010)

2) The 2010 genocide and crime against humanity that the petrochemical-military industrial complex is committing right now on US soil along the Gulf Coast, spreading into the world's waterways, air and food-web - the greatest crime and catastrophe in U.S. history. (See: Dupre, D. [Censored Gulf health news: Call it what it is: Genocide. Crime Against Humanity](#), *Examiner*, **July 27, 2010**)

"A limited hangout typically is a response to lower the pressure felt from inquisitive investigators pursuing clues that threaten to expose everything, and the disclosure is often combined with red herrings or propaganda elements that lead to false trails, distractions, or ideological disinformation; thus allowing covert or criminal elements to continue in their improper activities." ([Wikipedia](#))

Human suffering from poisons in the Gulf of Mexico region intensifies. The petrochemical-military-industrial complex's "no oil found" is in the Gulf waters and marshes as far as the eye can see. It is even bubbling up out of the ground in Louisiana. Citizen reporters are photographing and filming oil in four tates. For example, Denise Rednour has filmed Mississippi beach and water each day for three months, posting them on her website, [True Testament to the Gulf Oil Spill](#).

The photo and 2 short videos below tha Rednour shot August 7 and 8 depict typical Gulf coast oiled waters - covered up, the catastrophe "all over now" so that peace and justice groups spend their discussions and resources directly on what Wikileaks wants.

“PLEASE, don't be fooled by mainstream media and politicians who are telling people it's over, it's safe to swim, and the seafood is harmless,” pleads Rednour.

The "truths" focus right now to progressives, however, is that Bradley Manning is unjustly persecuted; he and Julian Assange are

heroes for exposing war crimes many others have exposed but not gained the American media fanfare; and whistleblowers: Be even more fearful, especially with the untimely death of Matt Simmons, a genuine whistleblower, one who opposed the petrochemical-military industrial complex Gulf oil 20101 propaganda.

Meanwhile, millions of Americans along the Gulf Coast have been gassed, thousands suffering lesions and an untold number internally bleeding that Hugh Kaufman said Corexit is suppose to do and as Simmons had alluded in his analysis that 20 million Gulf coast residents needed to relocate, stating, "[This story is 80 times worse than I thought.](#)"

"In effect, if an array of offenses or misdeeds is suspected, this [Modified Limited Hangout] confession admits to a lesser offense while covering up the greater ones."(Wikipedia)

In other words, a Modified Limited Hangout is yet another form of [mind/behavior control](#), "all designed to keep you preoccupied and bewildered from the steady enslavement and erosion of constitutionally guaranteed liberties that taking place daily," states Ken Adachi, Editor of Educate Yourself.

If Wikileaks videos and document disclosure operation is a CIA/military Modified Limited Hangout, what other greater offenses does is hide?

That list could be long in terms of US human rights abuses. To not labor over the CIA/military secret kidnapping, torture, drug running so supplies continue on US streets, targeting individuals in their homes and communities – to cut to the chase, how about looking at a brand new crime against humanity, the next one, the one it plans? That's what Tarpely does in the following explanation of Wikileaks Modified Limited Hangout.

While the above "evidence" of Wikileaks being an operative organization is not conclusive, adequate information exists pointing to the need for learning about CIA/military psychological operations.

Peace and justice groups can choose to learn and spread the word about psychological war weapons the petrochemical-industrial complex is applying to We the People to further its destructive agenda. Alternatively, such groups can deny psychological war weapon applications on the American public, and in so doing, risk unwittingly supporting the opposite of peace and justice.

Lasting benefits to humanity await psychologists of integrity leading by empowering the public with tools to: recognize professionally applied PSYOPs; understand related implications of human rights abuses; plus counter these psychological weapons by changing public policy including those related to issues involving psychologists and medical field professionals employed to further such psychological operations against best interest of the public – on U.S. soil.
